# Learn in a few minutes everything you must know about your skin!

In order to select the cosmetic line best suited for your skin type, you have to undergo a simple test that will help identify your skin type:

## The skin test:

You need 3 small pieces of thin and very fine paper:

1. Cleanse your face with fine soap without applying any cosmetic product;
2. Sixty minutes later, with the aid of the 3 pieces of paper gently rub with circular motions a portion of your face, nose and cheeks.

## Evaluation of the samples:

- Your skin is considered normal, if any of the papers from the nose, forehead and cheeks appear slightly stained with oil traces.
- Your skin is considered dry, if there are no grease traces on the paper.
- Your skin is considered oily, if all pieces of the paper have serious oily stains.

## Normal skin:

Common on average men and women between the ages of 20 to 30 years old.  
Reflects a total status of healthy skin and youthfulness.

Characteristic:

- The skin appears smooth, velvety, firm, elastic, slightly shining on T zone.

Recommended:

1. Your skin will not look this way forever. It will eventually change its appearance due to stress, pollution, UV radiation and inappropriate diet.
2. Protect and maintain your skin, through the active principles of the natural complex "Gerovital" - for normal skin: vegetal extracts (Corn silk, Lime flower, Horsetail, Hawthorn, St. John's Wort and Ginseng), vegetal oils (Jojoba, Soya, Wheat Germs), vitamins A, E, F and C, natural moisturizing factors (Phytoceramides and Hydroviton), the UV protection filter.

## Dry skin:

Reflects an insufficient amount of lipids and water.

Characteristic:

- Matt looking skin, rough, desquamated, wrinkled, lacking firmness, with small pores-sensible skin, prone to irritations;
- Vulnerable to the slightest changes in temperature or environment.

Recommended:

The use of the products specially created for dry skin type, that can regulate the dysfunctions of the skin through the active principles of the natural complex "Gerovital - dry skin": vegetal extracts (Cucumber, Hawthorn, St. John's Wort, Lime flowers, Corn silk, Horsetail, Nettle, Wild Thyme, Hip rose, Calendula), vegetal oils (Avocado, Soya, Cacao Butter, Wheat Germs, Olives, Jojoba), vitamins A, E, F, C, B5, UV protection filter.

## Oily skin:

Reflects the excessive secretion of the sebum glands.

### Characteristic:

- Glossy, oily, sometimes rough and desquamated, lacking brightness, with open pores and black heads.

### Recommended:

Use the specially formulated products for oily skin, that balances and controls the sebum secretion, with its healing, antiseptic and moisturizing agents; the moisturizing complex of vegetal extracts of Aloe Vera, Corn silk, Lime flowers, Horsetail, St. John's Wort, Hawthorn, Tormentilla, active ingredients (clay, Bisabolol, AHA), vitamin C, peppermint oil, and 15 UV protection filter.
